

## **Nadja Goff Biopic**

From June 2005 to December 2013, I was employed as a Journalist Saint Paul Luxembourg for Luxemburger Wort, one of the national newspapers of Luxembourg.

As Community Correspondent for Local News, Business and Arts , I interviewed many prominent politicians and religious leaders.

After meeting my husband, I moved to Exeter, married and had a son, who currently attends Woodwater Academy.

In March 2020, I joined Woodwater Academy as a Community Governor.

## **Why are you a Governor?**

I want to share my communication and people skills and experience with the Woodwater Academy community.

I am particularly interested in the support provided to the families of children on the autistic spectrum.

I'm looking forward to working with the school, families, and the SENCO to develop that support and ensure the school maximises the potential of all students.
