

PHSE: The main theme for this term will be Staying Safe. This theme will be embedded in units of Online Safety and Road Safety.

Science: Children will be learning about 'The Uses of Everyday Materials.' As part of this unit of work, children will be identifying and comparing the suitability of a variety of everyday materials including wood, metal, plastic, brick, glass, rock, paper and cardboard for different uses.

RE: The children will be studying Judaism and Christianity. Within this study, the focus will be to explore what people believe and the difference this makes to how they live. The children will gain the knowledge, understanding and skills needed to handle questions raised by religion and belief, reflecting on their own ideas and ways of living.

PE: The focus of learning is to recap the different ways of using our feet to move with a ball. Children will develop their understanding of the meaning of the word 'control' and why it is important to keep the ball close them.

English: Children will continue to have daily phonics and handwriting sessions. They will also have opportunities for writing their own narrative based on a fictional text and letters of advice, short news reports and information posters based on non-fiction texts.

DT: Children will be learning about frame structures. They will design a chair for a soft toy; demonstrating a range of joining techniques (such as gluing, hinges or combining materials to strengthen).

The Daintree Rainforest

Geography: The children will explore the oldest tropical rainforest in the world. They will compare and contrast the physical and human features of the Daintree Rainforest to our local environment and use basic geographical vocabulary to refer to key physical and human features.

Music: This term, the children will be exploring simple patterns in music and learning about how we can discuss music by thinking about the 'dynamics' (how loud or quiet the music can be) and 'tempo' (the speed or pace of a piece of music).

Maths: The primary areas of learning this term will be Place Value, Division, Fractions and Properties of Shape.

Computing: Children will familiarise themselves with typing on a keyboard and begin using tools to change the look of their writing, and then they will consider the differences between using a computer and writing on paper to create text.

Art: This term's art focus will be 3D sculpture and textile. Children will use rolled up paper, straws, paper, card and clay as materials to master the technique of sculpture and take inspiration from the British artist Marc Quinn.
